

The Skeleton Dance Song (By: Tarajjah Hoey-Gordon)

(Verse 1)

Tap your head, that's your skull,
Keeping your brain safe, oh so full!
Clap your shoulders, clavicle's the name,
It's the bony bridge in this dancing game.

(Chorus)

Let's do the skeleton dance,
With bones all in a line,
Move and groove, Lets get hype,
It's skeleton party time!

(Verse 2)

Swing your arms, humerus is fun,
Wave them high, like reaching for the sun!
Take a deep breath, rib cage in place,
Protecting your heart and lungs in the skeleton race!

(Chorus)

Let's do the skeleton dance,
With bones all in a line,
Move and groove, Lets get hype,
It's skeleton party time!

(Verse 3)

Twist your arms, radius and ulna are here,
They help you wave, bringing cheer!
Wiggle your back, feel the spine,
It's the backbone keeping you aligned!

(Chorus)

Let's do the skeleton dance,
With bones all in a line,
Move and groove, Lets get hype,
It's skeleton party time!

(Verse 4)

Shake your hips, pelvis in view,
It helps you dance and shimmy too!
Kick your legs, femur's so strong,
The longest bone, helping you walk along!

(Chorus)

Let's do the skeleton dance,

With bones all in a line,
Move and groove, Lets get hype,
It's skeleton party time!

(Verse 5)

Point your toes, fibula and tibia,
Two bones together, they're a trivia!
Dance with joy, your skeleton's cool,
It's your body's framework, the ultimate tool!

(Outro)

Now you know your bones, from head to toe,
Dance with your skeleton, let the rhythm flow!
The skeleton dance, a fun way to learn,
Keep moving and grooving at every turn!
